

Gigano

MYCORRHIZOGEN INOCULANT

Wettable powder

DESCRIPTION:

The mycorrhizal fungi and growth-promoting rhizobacteria contained in **Gigano** establish and multiply in the roots, forming an extensive mycelium network in the soil that provides them with greater absorption of water and nutrients, increases the photosynthetic rate, osmotic adjustments and production of vegetative and healthy growth.

Gigano's organic acids induce the release of root exudates, improving the colonization, establishment and biochemical activities of microorganisms.

SOIL ENHANCERS

BENEFITS:

- ✓ Improves the root activity and development.
- ✓ Enriches the biological fertility of the soil.
- ✓ Increases the crop's tolerance to stress conditions.
- ✓ Optimizes the availability and absorption of nutrients.
- ✓ Improves the physical conditions of the soil.
- ✓ Easy to use and apply.

GUARANTEED COMPOSITION

<i>Pisolithus tinctorius</i>	5x10 ⁷ UFC/g
<i>Gigaespora gigantea</i>	5x10 ² UFC/g
<i>Azospirillum brasilense</i>	1x10 ⁶ UFC/g
<i>Bacillus amyloliquefaciens</i>	1x10 ⁸ UFC/g
Organic acids	35.0%

INCOMPATIBILITY:

Do not apply **Gigano** before, or after 72 h the scheduled application of fungicides, bactericides or fertilizing solutions whose electrical conductivity is greater than 5 Ds/M (check compatibility table).

CROPS

Agave, Artichoke, Asparagus, Blackberry, Blueberry, Broccoli, Cabbage, Carrot, Cauliflower, Chili, Cotton, Cucumber, Eggplant, Garlic, Grains, Green Bean, Lettuce, Melon, Onion, Ornamentals, Papaya Tree, Pepper, Potato, Pumpkin, Radish, Raspberry, Strawberry, Tomato, Vineyard, Watermelon

Apple, Avocado, Banana, Citrus, Coffee, Fig, Guava Tree, Mango, Peach, Pear Tree, Pineapple, Walnut

RECOMENDATIONS

In a seed bed or nursery plant, dissolve 1 g/L of water in the solution where the first watering will take place.

Apply 1 kg/ha, at the sowing or transplanting until the end of the production stage with intervals of 15 to 30 days.

Apply 1 kg/ha, at the sowing, transplanting or at the beginning of the cycle.

INSTRUCTIONS OF USE: Open carefully the **Gigano** bag, weigh the indicated amount and dissolve in water, proportional to 1 kg in 50 L.

Apply **Gigano** via direct pressurized irrigation, drench or with a knapsack sprayer; covering the plant's root zone.

When using the same tank where fertilizers are applied, add **Gigano** as close as possible to the second third of the total irrigation time.
